

TechTool Pro 4.5.3 Updater

Saturday, 28 July 2007

TechTool Pro 4.5.3 Updater

Version 4.5.3

File Size 25.6 MB

Release Date: 7/27/2007

Description:

This updater will ONLY update TechTool Pro 4.5.1, 4.5.2 to version 4.5.3. If you are an owner of version 4.1.2 or earlier of TechTool Pro 4, you will need to purchase the TechTool Pro 4.6.2 DVD Update.

Owners of version 4.5.1 or 4.5.2 of TechTool Pro will not need to update to version 4.5.3 unless they have acquired a new Mac model that is not fully supported by the earlier version of the program. The version 4.6.2 DVD will boot the up to the Fall 2008 MacBook and MacBook Pro release. Current owners of TechTool Pro 4 can purchase the TechTool Pro 4.6.2 DVD Update for \$25 by contacting our sales department at 800-829-6227 or 707-566-3831. Micromat also offers an Annual Subscription Service for \$99. This is geared to owners of TechTool Pro 4 who wish to receive each update or upgrade automatically on DVD as soon as it is released.

This updater is capable of updating the TechTool Pro 4 application that resides on the eDrive volume.

Changes:

- Updated Volume Structures and Optimization routines.
- Updated Volume Journaling feature for Intel-based Macs.
- Integration of the TechTool Pro 4 Security Patch.
- Added compatibility for new Macintosh models up through June, 2007.
- Other minor changes and feature enhancements.

NOTE: Version 4.5.1 and above requires Mac OS X 10.4.x.

For complete change list, see the ReadMe file.
